# Atong No. 1 gambling lord

## Sen. Miriam also slams DILG-PNP control of 'jueteng'

By GIC Cabacungan Jr.

ATONG ANG, a former gambling buddy of deposed President Joseph Estrada, was not in the list of "jueteng" operators submitted by retired Archbishop Oscar Cruz to the Senate on Tuesday.

But it is a reality that Ang topped the list of operators of illegal gambling revealed yesterday by Sen. Miriam Defensor-Santiago.

In a privilege speech, Santiago identified Ang as No. 1 in four out of five regions.

The others are Danny Ison, Bong Pardo, Aging Ison, and Tony Santos. (See list of gambling operators on Page A8.)

Pointing to Santiago's accusations, Ang said he was not involved in jueteng operations.

Santiago delivered her privilege speech a day after Cruz, head of the People's Crusade Against Jueteng, released a list of jueteng operators and beneficiaries spanning from President Undersecretary Raul R. Pura and former Philippine National Police Chief Juan Velasco were receiving up to 30 million a month in jueteng profits.

Santiago placed the annual jueteng receipts at P50 billion.

Jueteng has thrived in the Philippines. Santiago, gambling boss have found the winning combination in a tolerant and corrupt Department of Justice.

ATONG/AN

**DATE WITH THE 'OLD GREY LADY'** President Aquino is all smiles after an interview with editors of the venerable and great The New York Times in New York City on Tuesday. Mr. Aquino, who is on a seven-day official visit to the United States, and his Cabinet had also been interviewed by Bloomberg and Reuters, according to Malacañang.

## Solons laud Puno offer to quit, not to burden Noy

By GIC Cabacungan Jr. and Alcain Pags

SENATORS yesterday cheered Interior Secretary Eric Puno for handing their call to hand in his resignation after getting the flak for the hearse crisis and

the ongoing controversy over "jueteng," an illegal numbers racket.

Puno's exit allows that he has "defused" and is willing to give his friend, President Aquino, a free hand in resolving those issues, said Sen.

Francis Escudero.

"This is a good example because it shows that we in government should not hold on to our posts. Whether guilty or not guilty, if you are a burden to the President, you must resign," Escudero said at a press conference.

Puno on Wednesday said he would submit a courtesy resignation to the President when the latter returned from the United States.

He was named as a Senate Secretary on Tuesday as one of the

## The pain of a hero's mother: Nobody remembers my son

By Kristine L. Alano

LIZ MAHALANES often wonders if people still remember Marikina, her 17-year-old son who died a year ago while rescuing victims of Tropical Storm "Ondoy," which brought sudden flood to their community in Quezon City and other neighboring areas.

Her thoughts about Marikina, who was buried in a mass grave

**ONDOY** OVER A YEAR AGO

in Noviches, and the changes in their life after the storm usually remember it right as the one of the household sleep.

A newly renovated concrete house has replaced her shanty in the waters of Marikina Bay, Marikina, which hugs the San Mateo River. Righting waters swallowed houses when Ondoy decimated some Marikina's on Sept. 26, 2009.

The home improvements, made possible by private donors, including the Cebuano

## Saving 100 no big deal for 'Jet' judge

By John M. Aurelio

FOR SAVING 100 lives during the worst flooding in the metropolis in four decades, the presiding judge of the Quezon City Regional Trial Court Branch 83 earned more newspaper space and a renouveau as a sort of hero on a jet ski.

Judge Ralph Lee is a bit uncomfortable being called an "accidental hero."

Rescuing stranded residents of a Quezon City subdivision flooded by Tropical Storm "Ondoy" resulted in the most actual thing to do at the time,

## Reyes out as transport party-list rep

By Jonathan H. Ly

**DISQUALIFIED** you're just not one of them.

The Commission on Elections yesterday disqualified former Energy Secretary Sergio Broya as a member of campaign party for group 1 Unid, stating that the former Cabinet official does not belong to the marginalised and sector the group seeks to represent.

For all, Peters was doing his job as a Catholic official in promoting activities and programs that seemed to advocate for the rights and welfare of the transport sector, according to the 13-page revelation passed by Harkin Commissioner Peter Seamus.

Commissioners Mendonso Ferry, Ismaro Blanco and Elia Torgu returned from the mission.

Bayer's disqualification stripped him of the opportunity to sit at the House of Representatives.

That summer House Democrats will instead represent the party-line group, which is limited to one seat, in Congress. The group's second member, Nigel Marston, has earlier resigned citing "professional considerations."

The party-list has claimed to represent all drivers and operators of public utility vehicles in the country.

"A careful perusal of the documents produced by Beggs, one cannot help but realize that the aforementioned activities that he claimed to be in the furtherance of the efficiency of L. CHA were all performed by him in his capacity as member of the Cabinet," read the decision.

Involving the election body is also a mission making the local population an extension of the party-list group. Nyeri encouraged several activities to be undertaken to "promote" the group's candidature.

## Party-list reps bloat House membership to 274

THE 1994 CONGRESS is now the biggest chamber since the reopening of Congress was from the other side.

Three more partylist segments came back their cash Tuesday before Speaker Pellicano Reimonte Jr. leading the total membership of the House of Representatives to 274.

Representative from Illinois based, American C.

Bureau and Salvador F. C. (Cao) (First Committee A Rural Energy) and President of Association of Philippine Cooperatives were joint speakers following their presentation by the Commission on Elections.

The previous Coxones

United Speakers' Bureau Negotiators had about 250 members, while there were about 230 congressmen during the tenure of longtime Speaker Carl Albert.

To date, there are more 30-year-old representatives, two-thirds of the congressional line of 55. The House has 235 members representing the country's legislative branch. **Alfred Lee III**

### ₹1.3B for river rehab spent in polls, says Drilon

THE TWO milk products earlier approved as safe today are not from store shelves, are safe for human consumption, the Department of Health (DOH) announced yesterday.

"The milks are still for her consumption, ... the order of withdrawal was made in connection with the birth."

and Mustang Milk. Both The Milk Supplement failed to comply with state standards for fat-based content in

But the health executive pointed out consumers who had bought the two milk products prior the FHM order need not return or dispose of them as they were safe for consumption.

A FORTUNE group of eleven located in eight provinces in Laos and the Viangxan received a whopping P1.3 billion for rehabilitation from the past administration.

"To me, this was clearly used in the situation," he said in a press conference after the executive hearing on the proposed 2011 budget of the Department of Environment and Natural Resources.

Asked if he had evidence to support the allegation, he replied: "The circumstantial evidence is less than strong. There is reason to believe that it was not used for the purpose intended."

Wilson pointed out that the entire amount was released in just eight days, from Feb. 18 to 26 this year, or some three months before the elections. He said the money was contained in separate special allowance release codes.

Bangkok received a total of 762.3 million for the rehabilitation of seven main roads. The fund for Bangkok was actually the smallest among the eight provinces, according to the "Summary of Releases for Construction National Fund" for 2003.

The other producers were Hamilton (\$175 million), Alcoa (\$162 million), Inland City in Laysan (\$160 million), Anapa (\$145 million), Wilson (\$120 million), Bristol City in Aqueduct (\$100 million), and Oremington (\$94 million).

A total of 78 slaves in these eight provinces reportedly benefited from the land release, according to the document made available by DfF.

Because of the FL-3-billion bond release, the senator said his committee would likely monitor the planned deepening of the Laguna Lake, which was allocated P 6.5 billion.

## RP routs foes in Olympiad opener

**BEAUTY AND THE BEAST**—The Philippines started strong in the 2010 Asian Championships, pulling off a 4-0 victory over South Korea in the men's division and Netherlands in the women's category Tuesday (Wednesday in Manila).

Champion Wesley So, John Paul Lopez and Dennis Lopez and International Master Richard Bawa swept their teams into four of 14 championship on opening day that put the 27th-ranked Filipinos one step closer to the top of the medal table.

The 35-year-old So, a former Singaporean, won the 2009 World Chess Olympiad, pulling off a 4-0 victory over South Korea.

So, who got his 2009 title during the 2009 World Chess Olympiad, secured his first title (2011) in Manila.

Lopez edged Maurice Chepur (2011) on board three, while Bawa crushed Hong Kong's on board five.

So, who got his 2009 title during the 2009 World Chess Olympiad, secured his first title (2011) in Manila.

2010 Top Filipino team

The title was put the Filipinos in an early collision against highly rated South Korea.

Canada, Catherine Pines, Brenda Lee and Kelly Tse won board four, while Lopez and Lopez won board five.

## Pacquiao's camp starts on Monday

By Ronan Stammers

MANNY PACQUIAO has decided to train the Filipino only this Sunday with his training camp to officially open the next day followed by a sparring session Tuesday.

His return to the gym after a long hiatus has been a subject of much speculation after the 34-year-old congressman's return to the ring last year. He has been training in the United States since he moved to the United States in 2009.

# 1 dead, 2 wounded in armed attack

## Gunmen open fire on 3 men playing chess in alley in QC

By Harry C. Carvajal

Five armed men carrying high-powered firearms entered Republic Avenue, an alley in Barangay Holy Spirit, Quezon City, at around midnight on Tuesday and fired at a group of men playing chess, killing one of them and wounding two others.

Four officers PGI-Jaguar Hernandez of the Quezon City Police District and William Macapagal, 35, died on the spot due to multiple gunshot wounds.

The investigation—Acting Captain, 20 and Juan Dixon, 20, both residents of the area—were called by witnesses to End Arson Incident Center where they were assigned.

Sgt. Anthony Vero said this was the first time a shooting incident took place on Republic Avenue.

"This is the first reported case in this area and we will look into it," he told the Inquirer.

Investigation showed that before the shooting, a crowd was gathered in the alley

under a lamp post, watching the chess players chess.

The group Holy Spirit residents officers Jaguar Hernandez and William Macapagal were in the alley at night when they died.

"It is where residents have hung around because it's safe," he said to be added, "It's not a place that's always a crowd there."

Police said they were looking for the possibility that the incident could be a case of random shooting because the crowd was targeted by the gunmen and did not know other people in the area.

According to witnesses, the suspects left after they finished their target area and there, Hernandez said.

He added that a witness told investigators that he heard one of the gunmen tell his companions that the men they were looking for were not in the crowd.

The witness said this was after one of the armed men pointed his gun at him but did not fire when he saw his face.

The barangay official, however, said that the men were wounded, could be the suspect of the gunman and that his companions were left in the alley.

By adding that the men had just been released from detention after he got involved in a case.

A PHILIPPINE Red Cross volunteer is seen working to rescue victims in Barangay Pao del Rio, Makati City, as a fire consumes their home.

## Fire leaves 50 families homeless

By Tina S. Santos

A fire apparently caused by a leaking liquid petroleum gas (LPG) tank hit a community of informal settlers in Makati City yesterday morning, leaving some 50 families homeless.

No one was reported injured or killed in the fire which raged for an hour and a half, according to the

Office 1 Area Assistant of the Makati Central Fire Station.

The main street smoldered for nearly three hours at 5:30 a.m. in a house in the area called Villa Montano at the corner of Amorsolo and Cella Road Street, just in front of Makati Medical Center.

The flames spread quickly to nearby shops and homes because that were made mostly of light

materials.

Before it broke out, Apo View said he was reading when he noticed that the LPG tank for his wife was leaking. Amorsolo said.

The fire was declared under control at 6:20 a.m. before it was put out by firefighters.

The estimated cost of damage to property was pegged at P200,000.

## Makati gov't forms committee to probe West Tower oil leak

By Tina S. Santos

THE MAKATI City government has formed an inter-agency committee to investigate the source of an oil leak at the 22-story West Tower road-ramp in Barangay Bagbag, Makati City.

City Engineer, city public information officer, said the team would be composed of personnel from the city departments of environment, energy and health.

"We have the team, the team will begin to probe, assess and recommend what actions need to be taken," he told the Inquirer.

Engineers added that representatives from the city's West Tower residents and West Philippine Industrial Corp. (WPIC) would also be part of the investigation team.

WPIC, the operator of the country's largest commercial pipeline located just a few meters away from the condominium, has stated a water source of the area near the building is threatened if the leak is coming from its system.

The pipeline transports oil from refineries in Cebu and Manila to the Philippines and Japan.

"We are concerned in a leak of the pipe, potentially posing a serious health risk to the residents," he said.

The West Tower residents, who have closed off the building but the oil leak, which was first detected on July 12, has yet to be contained.

To date, more than 10,000 liters of water contaminated had been being collected from the basement since July 23.

# OVERCOMING BALDNESS

## THINK-A-HEAD

"No man likes being bald. He may try to ignore it, but deep inside, there's a nagging feeling that his hairless state. Why not? After all, I guess bald when my friends have it. Many men really accept looking older, being called 'baldie,' feeling not so attractive to the opposite sex and putting up with the other handshakes baldness brings—both socially and career-wise."

Other men refuse to accept baldness and look for a way out—this is where a wrong decision can lead to an even worse state of frustration and despair. Before you do anything about baldness, read the answers to these most asked questions.

**Q. I DON'T WANT BEING BALD—WHAT CAN I DO?**

A. There are basically two ways to go. Some men opt for a surgical hair transplant. Others for the non-surgical alternative. When making the decision there's one essential rule: THINK-A-HEAD! It's not only the immediate results that are so important, it's what your head is going to look like in a few years.

**Q. OK, SO WHAT ABOUT SURGICAL TRANSPLANTS?**

A. Some say transplants have come a long way since the early days, when they haven't come far enough. Basically, the surgical process involves taking donor hair from elsewhere on the recipient's head and transplanting it to the balding areas.

**Q. DOES TRANSPLANTED HAIR CONTINUE TO GROW?**

A. If the surgery has been performed well, the transplanted hair will continue to grow, as it did before it was moved.

**Q. CAN ANY BALD MAN HAVE A TRANSPLANT?**

A. It's not really possible for a man with advanced baldness because he simply would

not have sufficient donor hair to cover his large bald area. Transplants do not increase the number of hairs on a man's head, it's just a case of redistributing them. Transplants are excellent for filling in smaller areas or adding extra hair in thinning parts where there is not expected to be further loss.

**Q. ARE THERE ANY PROBLEMS WITH TRANSPLANTS?**

A. For men whose baldness will not advance further, there seems little downside to having a transplant.

**Q. BUT WHAT HAPPENS IF I CONTINUE TO GO BALD?**

A. For those whose baldness continues to advance, there can be significant problems. While the transplanted hair will carry on growing, his other hair becomes thin to constant as he progressively goes bald. He can have further transplants, but it's likely donor hair will become insufficient as the donor area does not re-grow hair. The result might be patches of thicker-growing hair among thinning and sparse hair—and this isn't what I take long happens.

The resulting odd appearance of the man's head can cause him further embarrassment and stress, spread of hairless areas, but for most it takes just a few short years from thinking to full-blown baldness.

If a man suffers from Male Pattern Baldness, which usually starts when he's in his early twenties or thirties, his hairless will likely continue until he's old. This is when the catch phrase THINK-A-HEAD comes into play. Think what your head will look like in a few years after surgical transplanting—will you want to go out in public?

**Q. I DON'T WANT THAT RISK, SO WHAT'S THE ALTERNATIVE?**

A. The non-surgical alternative is TCC or Transcranial Cosmetic Reconstruction. It's a

super-fine synthetic skin with hair roots in it, actually growing from it, which is then bonded to your scalp.

**Q. IS TCC FOR ANYONE, NO MATTER HOW BALD HE MIGHT BE?**

A. Yes, this advanced system is ideal for any state of baldness and baldness, even for men with only a small amount of hair at the back and sides—the rest of baldness which is usually not suitable for a transplant.

**Q. HOW REAL IS TCC, WILL IT LOOK SURROUND?**

A. TCC is real, natural hair, which looks and feels as if it's growing from your scalp. TCC cannot be distinguished from your own hair, even by touching. You are not "wearing" it, it's part of you.

**Q. DOES TCC REQUIRE SPECIAL CARE?**

A. To keep TCC perfect, you need only visit to the stylist every two or three weeks, just as you may do for the cutting and styling of his hair. As you get older, your TCC can be softly aged and grayed, just as your hair head of hair would have looked had you not lost it.

**Q. IT SEEMS YOU GO TO BE TRUE—WHAT ARE THE PROBLEMS?**

A. There are no problems. You can do anything with TCC, it's your new full head of hair. It looks hardly natural on your head—yes, it's not aware of it. The only time you'll be reminded that you're no longer bald is when you look in the mirror and have others meet to you—sometimes, you're going to look more younger!

**Q. IS TCC AVAILABLE IN MANILA?**

A. Yes, it's available in Manila at Foreman, the hair replacement specialists.

**Q. IS TCC SUITABLE FOR ME?**

A. To find out if your scalp condition and skin type are suitable for the TCC procedure, book a visit to TCC hair styling consultation by calling 892-4297.

# MANIFESTO

## EXPRESSING INDIGNATION OVER SWEEPING AND UNFOUNDED ACCUSATIONS AGAINST GOVERNOR AMADO T. ESPINO, JR.

**W**e, the undersigned elected provincial officials of the Province of Pangasinan, motivated by our sincere faith in a strong leadership and a deep conviction for the steady progress and development of the Province of Pangasinan, solemnly declare the following:

That we acknowledge the invaluable role and accomplished efforts of Governor Amado T. Espino, Jr. in the transformation of Pangasinan as a protest province of our country;

That we convey our disquietude over the patently biased and utterly speculative accusations attributed to our leader who has a long record of accomplishments, an unquestionable political will, a deep sense of love for Pangasinan and a commitment to uplift the lives of Pangasinanenses;

That we reiterate Governor Espino's speedy and aggressive actions geared towards the eradication of peace and order problems, including illegal activities within the Province of Pangasinan;

That we are aware that Governor Espino has exerted efforts to extinguish "jacking" in the Province of Pangasinan because the operations thereof is illegal per se;

That our continuing consultations with our constituents reveal that the so-called "3% of society" known as jacking which has long been existing in all corners of the underplage has somehow promised needed income for them for the daily sustenance of their families;

That we realize that the best way to eradicate jacking is to raise the living conditions of the people and to create more livelihood opportunities for them;

That we are fully cognizant of the fact that under Governor Espino's administration which commenced in 2001, Pangasinan has steadily earned recognition because of positive developments in the areas of tourism, health, agriculture, peace and order, education, social service, environmental protection, and peace and order concerns;

That evidently, Governor Espino has succeeded in creating a conducive atmosphere for investments and other economic activities in the Province of Pangasinan;

That we strongly urge our Chief Executive not to be affected, much less disturbed by malicious insinuations cast against his personality which are probably intended to distract him and his efforts to care for the needs of the province;

That we deplore the inclusion of Governor Espino's name in the list of jacking lords and operators provided by retired Archbishop Oscar Cruz during a Senate Blue Ribbon Committee hearing;

That it is our common sentiment that anybody who malevolently attempts to destroy the credibility of the Governor and endeavor to divert his attention from efficiently performing his task of steering the province towards progress and development should be declared as persons non grata in the Province of Pangasinan;

That we are one in saying that Governor Espino's dedication to the service for Pangasinan and its people remains to be the primary reason why Pangasinan is now in its peak of development and the Pangasinanenses of today could not be much prouder for having a Chief Executive who has rightfully earned the distinction of being called "the Best Governor" of Pangasinan;

That we publicly express our confidence in the leadership of Governor Amado T. Espino, Jr. and convey our unswerving and unequivocal support to him as Chief Executive of the Province of Pangasinan.

Done this 31<sup>st</sup> day of September, 2003 in Lingayen, Pangasinan.

## Mindanao power supply critical

### Gov't rushes measures to avert crisis in fourth quarter

By Aring B. Rana

**EXPECTING** a tight power supply in the fourth quarter, the Department of Energy has started mobilizing short-term solutions for Mindanao, including the possible rehabilitation of power plants currently placed under "preservation" mode.

"We had an emergency meeting to discuss the current power situation as well as make preparations for the power requirements in the last quarter of the year in Mindanao. Details of proposed solutions are currently being

studied due to legal and technical aspects," said Energy Secretary Justine Z. Alvarez. Alvarez said that studies were being undertaken for the various options that could be implemented, which also in-

cluded demand-side management and the use of available power-generation facilities. "In measures that will not skew the electricity cost too high."

He said all concerned energy agencies would continue to meet weekly until a stable electricity solution has been put in place. These agencies included National Power Corp., National Electric Distribution Administration, National Transmission Corp. and National Grid Corp. of the Philippines.

"The rehabilitation and other-year program will continuously be monitored," he added.

The energy short, however, did not say how much the shortfall in capacity in Mindanao would be by the end of the year. He stressed earlier that the government expected a power supply shortage of up to 30 megawatts up the island by 2011, if all the hydro-power plants continued to operate at full capacities.

Should the country experience another El Niño as what happened earlier this year, the deficit would become bigger.

"Mindanao, in the past, has been reliant on hydroelectricity."

## Retirees fulfill travel dreams with Cebu Pacific

THOSE WHO love to travel often look forward to their days when they can retire and explore the world. As many senior citizens and retirees have, raising children or working for a living requires sacrifice. The most common reason for this is that it is difficult to get by with the continuous demands of work, family and community.

After decades of hard work and sacrifice, stress and empty rooms finally get to be your dream home, and spend their time in different locations. Getting an affordable package is definitely a plus, which is why many of these appreciate Cebu Pacific Air (CPI) for its modern low fares and extensive network to 25 destinations and its extensive hotel partnerships.

One such person is Betty Gila Williams, who worked for 17 years in the pharmaceutical industry but has positive working as a travel manager since a leading drug company.

"I just want to enjoy what I've worked for in this past," she said. "Work was very re-

sponding here, as there wasn't much time to travel. Also, there were many bills, as well as the expense for the education of my children. Once I retired, I got to see more places and experience new things. It's amazing to know you can adventure things, which is what I want."

When Williams fulfilled her obligation, she looked forward to spending more time with her family and frequenting beaches and nature destinations like Singapore and Hong Kong. She discovered Cebu Pacific, which was what she was looking for.

"Cebu Pacific has been able to give me an opportunity to travel without spending so much. And thanks to very affordable travel packages, I have considered leaving my job."

Another retiree, Remedios Reyes, is also finding getting the opportunity to explore the world further. The 66-year-old former United Nations training and facilitator will not only enjoy a low-cost flight but will also enjoy the service and the food.

"I just want to enjoy what I've worked for in this past," she said. "Work was very re-

"I used to travel a lot due to the nature of my work," he said. "Now I want to focus on other aspects of my life, such as retirement and family. Affordable fares and extensive flight schedules and connections help fulfill my dream these days. And the most best service that Cebu Pacific offers is a big plus for me."

Reyes has been in Thailand and Hong Kong and visited to other countries. He said that CPI continues to be an option for those who wish to increase themselves in different countries.

"I hope to visit China, South Korea, and other Asian destinations monthly. It's an advantage to travel the way Cebu Pacific does, and there's the customer service," he said.

With these relaxing packages, retirees and empty rooms are having the time of their lives.

For more information on CPI flights, go to [www.cebupacific.com](http://www.cebupacific.com) or [www.facebook.com/cebupacific](http://www.facebook.com/cebupacific).

## Fed mills over steps to bolster US growth

**WASHINGTON**—The Federal Reserve on Tuesday outlined steps to help steps to bolster a sluggish US recovery, among it would be to provide more support for the economy and supporting stronger economic growth.

The US central bank's policy-making panel opened the door today to pumping hundreds of billions of new dollars into the economy, although it made no policy shift at the end of a six-day meeting, keeping overnight interest rates unchanged.

The committee — as prepared to provide additional accommodation if needed to support the economic recovery and to ensure inflation, over time, to be consistent with its mandate. "It is a goal in a moment."

After its last meeting on Aug. 18, the Federal Open Market Committee had simply said it would "employ its policy tools as necessary."

The Fed's move has a very clear impact on the economy, as it is a signal to the market that the Fed is not letting the economic recovery, slowly but surely, slip away. The Fed's move is a signal to the market that the Fed is not letting the economic recovery, slowly but surely, slip away.

By Russell K. Dooling

**FED GOVERNMENT** registered P274.6 billion in net borrowings as of August 10, the second of the net partners of P13.2 billion posted in the same period last year, the Bureau of the Treasury said.

A document from the Fed shows that the bulk of the borrowings during the period came from the issuance of Treasury bills, which are sold to the public in the primary market.

The government also issued a total of P11.8 billion in total Treasury bonds — one for the Treasury's debt in April and another mainly for Treasury's debt in August.

From January to August, net government borrowing reached P274.6 billion, compared with P13.2 billion in the same period last year, the Bureau of the Treasury said.

The total was about 138 percent more than the year ago figure of P24.1 billion, which covered P14.1 billion from August

## Inflow is 118% more than year-ago level

and P127.25 billion from local lenders.

In the same time, the government paid a total of P24.6 billion in interest on P13.2 billion in foreign bonds and P206.25 billion in domestic bonds.

Total payments were about 9 percent more than the P24.6 billion paid in the same period last year, which covered P24.6 billion in foreign obligations and P206.25 billion in local bonds.

In August alone, the government registered an outflow of P24.6 billion, compared with a net payment of P24.1 billion in the same period last year.

On Monday, Finance Secretary Gen. V. P. Arroyo said the budget deficit in January to August reached P206.25 billion, higher by 8.4 percent than the year-ago figure.

In August, the government collected a total of P27.25 billion in net foreign loans, doubling the P13.2 billion last year.

The net foreign inflow covered funding for projects, a big chunk of which came from the Philippine's Overseas Economic Cooperation Fund.

The total overseas development assistance (ODA) in the eight months to August fell by 27.2 percent to P27.25 billion from P37.25 billion a year ago.

Net foreign loans, however, doubled in August to P27.25 billion, a record of the net payment of P24.6 billion in the same month of 2008.

The huge increase was mainly due to the issuance of small currency bonds for some P100 million worth P27.25 billion.

Also in August, the government deficit on P24.6 billion for payment of foreign bonds, slightly higher than the P24.1 billion in the same period last year.

At the same time, the government paid P24.6 billion in domestic obligations, 37.5 percent higher than the P24.1 billion a year ago.

## PLDT offers more affordable mobile Internet

By Paolo S. Matibag

**COMMUNITY CONNECT** Philippine Long Distance Telephone Co. (PLDT) launched a mobile Internet service that makes it more affordable for budget-conscious subscribers.

The service, called PLDT Mobile Internet, will allow PLDT Mobile subscribers to access the Net using their laptops for less than the current rate.

Other service charges about P10 for the use of the service, which is available to all PLDT Mobile subscribers, will be charged based on per kilobyte of data transmitted.

Subscriber rates for PLDT Mobile Internet are set at P10 for the first 100 kilobytes, and P10 for the next 100 kilobytes, and so on.

Witness a city  
taking shape...

*South Lake Village*  
AT ETON CITY

Aerial photo as of September 2010

Taking inspiration from next-generation lakeside cities only found abroad, ETON PROPERTIES introduces one of the biggest and most ambitious developments in the country—ETON CITY.

A never before seen development south of Manila, it is carefully master-planned to furnish you with a complete city lifestyle in a nature-rich, suburban setting.

Eton City cradles South Lake Village, the first residential island-let development in the Philippines. Crafted in perfection and blessed with nature's blue and green hues, this high-end residential enclave is comprised of 18 distinct islands surrounded by a sapphire 35-hectare man-made lake.

Truly a proud product of nature, technology and modern engineering, ETON CITY raises the bar in world-class living.
